

Transactions on Decarbonization Frontiers

Electric Mobility · Renewable Energy · Smart Grids · Artificial Intelligence

CALL FOR PAPERS

Open peer review for the decarbonization transition

Research on electric mobility, renewable energy, smart grids and their intersection with artificial intelligence — reviewed in the open, with the review record published alongside the paper.

Scope

Electric mobility

Renewable energy

Smart grids

AI in energy systems

Why submit to TDF

No fees, ever

Free for authors and for readers

A DOI on acceptance

Your paper becomes citable

Open review records

The whole process is on the record

Bilingual platform

Readers in China and abroad

How to submit

1 Deposit your preprint

Upload to Zenodo and get a DOI

2 Submit for review

Send it to TDF for open peer review

3 Get indexed

Accepted papers get a TDF number
